

24.0 COVID-19 DISINFECTING PROTOCOL

Employees should sanitize and disinfect all areas of their workplace with special attention to:

- Tools
- Workstations and equipment
- Lockers
- Common surface areas
- Computer screens and keyboards

General Disinfection Measures:

This checklist should be implemented in facilities to reduce the risk of spread of infection. The cleaning steps outlined below should be taken routinely, based on frequency mentioned to disinfect workplace surfaces, chairs, tables, etc. and protect employees. Along with these workplace disinfection activities, proper personal sanitary practices including washing hands after bathroom use are also necessary.

Disinfection frequency in workshops & offices

AREA/PLACE	DISINFECTION CONTENT	FREQUENCY
Work Cell Common Surface	Including control buttons, tools and other common surfaces	End of each shift at a minimum and/or after each use
Offices, desk and conference rooms	Tables, chairs, mouse, keyboards and phones	End of each shift at a minimum and/or after each use
General objects often used or touched	Doors and windows, handles, water coolers, faucets, sinks and bathrooms	At least four (4) times a day or after each use
Forklifts	Wipe areas of common interaction	After each use
Transport Vehicles	Common surfaces (i.e. handles, seat belts and wheel)	After each use

Inbound Parts/Materials/Packages:

The World Health Organization advises it is safe to receive packages from areas where COVID-19 has been reported, advising that,

“The likelihood of an infected person contaminating commercial goods is low, and the risk of catching the virus that causes COVID-19 from a package that has been moved, traveled, and exposed to different conditions and temperature is also low.”

The virus does not survive on surfaces for long and the length of shipment time and other environmental factors should inactivate the virus. Please continue to use caution however.

SAFETY AND HEALTH PROGRAM

FORM 2.0.1 Employee Safety Training Checklist

Employee Name		Hire Date	
Position		Trainer	

I acknowledge that I have been trained in the SAFETY AND HEALTH areas checked below, and agree to follow all EAFab Corporation Safety and Health Rules, Policies and Procedures.

☐	Safety and Health Program
☐	My right to ask questions, or report any safety hazards, either directly or anonymously without any fear of reprisal.
☐	Disciplinary procedures that may be used to ensure compliance with safe work practices.
☐	Reporting safety concerns.
☐	Accessing the department safety committee.
☐	Incident Reporting and Reporting Occupational Injuries and Illnesses.
☐	Hazard Communication
☐	The potential occupational hazards in the work area associated with my job assignment.
☐	The safe work practices and personal protective equipment required for my job title.
☐	The hazards of any chemicals to which I may be exposed, and my right to the information contained on Material Safety Data Sheets (SDS's) for those Chemicals.
☐	Hazardous Material Spill Response
☐	Blood borne Pathogen Response
☐	Personal Protective Equipment
☐	Employee Safety Manual
☐	Machinery Tag Out Program
☐	Emergency Procedures
☐	Other: _____

I understand the above checked items, I have been trained on each of them and agree to comply with all the safe work practices in my work area as per the corresponding policies.
